

AMENDMENTS TO THE SPECIFICATION

At page 1 of the specification, before the section entitled "Field of the Invention," please insert the following section:

Cross-Reference to Related Applications

The present application is a continuation of U.S. Patent Application No. 09/943,031, filed on August 29, 2001, now allowed; which is a divisional of U.S. Patent Application No. 08/977,183, filed on November 24, 1997, now U.S. Patent No. 6,306,642.

Please amend the paragraph beginning at page 3, line 24 as follows:

--Another embodiment of the present invention is a flow-through lateral flow enzyme immunoassay device, comprising a disk comprising inner and outer hydrophilic zones separated by a hydrophobic barrier, the inner zone containing an enzyme substrate and having a smaller pore size than the outer zone, the outer zone containing an enzyme-antibody conjugate having affinity for an analyte; a contact pad in fluid communication with the molded disk; a capture zone in fluid communication with the contact pad; and an ~~adsorbent~~ absorbent zone in fluid communication with the contact pad.--
